

Class 1(Maths)

C.A.E.H.S(Primary sec)

Lesson 6-Worksheet 3(Division)

Divide on the number line:-

$$\boxed{15} \div \boxed{3} = \boxed{5}$$

$$\boxed{10} \div \boxed{2} = \boxed{}$$

$$\boxed{14} \div \boxed{7} = \boxed{}$$

$$\boxed{16} \div \boxed{4} = \boxed{}$$

$$\boxed{20} \div \boxed{5} = \boxed{}$$

$$\boxed{6} \div \boxed{3} = \boxed{}$$

Sum no.1 has been shown to you. Show the jumps on the number line and divide by repeated subtracton. Write the answer in the box provided. Staple the worksheet in maths copy.

Maths H.W-Maths book Pg 89(do the H.W in the book)
Answers will be given in next class.

Class 1(Maths)

C.A.E.H.S(Primary sec)

Answers of worksheet 2(Ch 6 Division)

Find the number of groups and show in terms of repeated subtraction and division.

1) 10 balls to be put in groups of 2 each

$$\begin{aligned}10-2&=8 \\8-2&=6 \\6-2&=4 \\4-2&=2 \\2-2&=0\end{aligned}$$

So there are 5 balls in 2 groups each.

2) 6 tomatoes to be put in groups of 3 each

$$\begin{aligned}6-3&=3 \\3-3&=0\end{aligned}$$

So there are 2 tomatoes in 3 groups each.

3) 18 strawberries to be put in pairs of 2 each.

$$18-2=16$$

$$16-2=14$$

$$14-2=12$$

$$12-2=10$$

$$10-2= 8$$

$$8-2= 6$$

$$6-2= 4$$

$$4-2= 2$$

$$2-2= 0$$

So there are 9 groups of 2 strawberries each.

4) 12 candies to be put in groups of 4 each

$$12-4=8$$

$$8-4=4$$

$$4-4=0$$

So there are 3 candies in 4 groups each.

5) 14 apples to be put in groups of 7 each

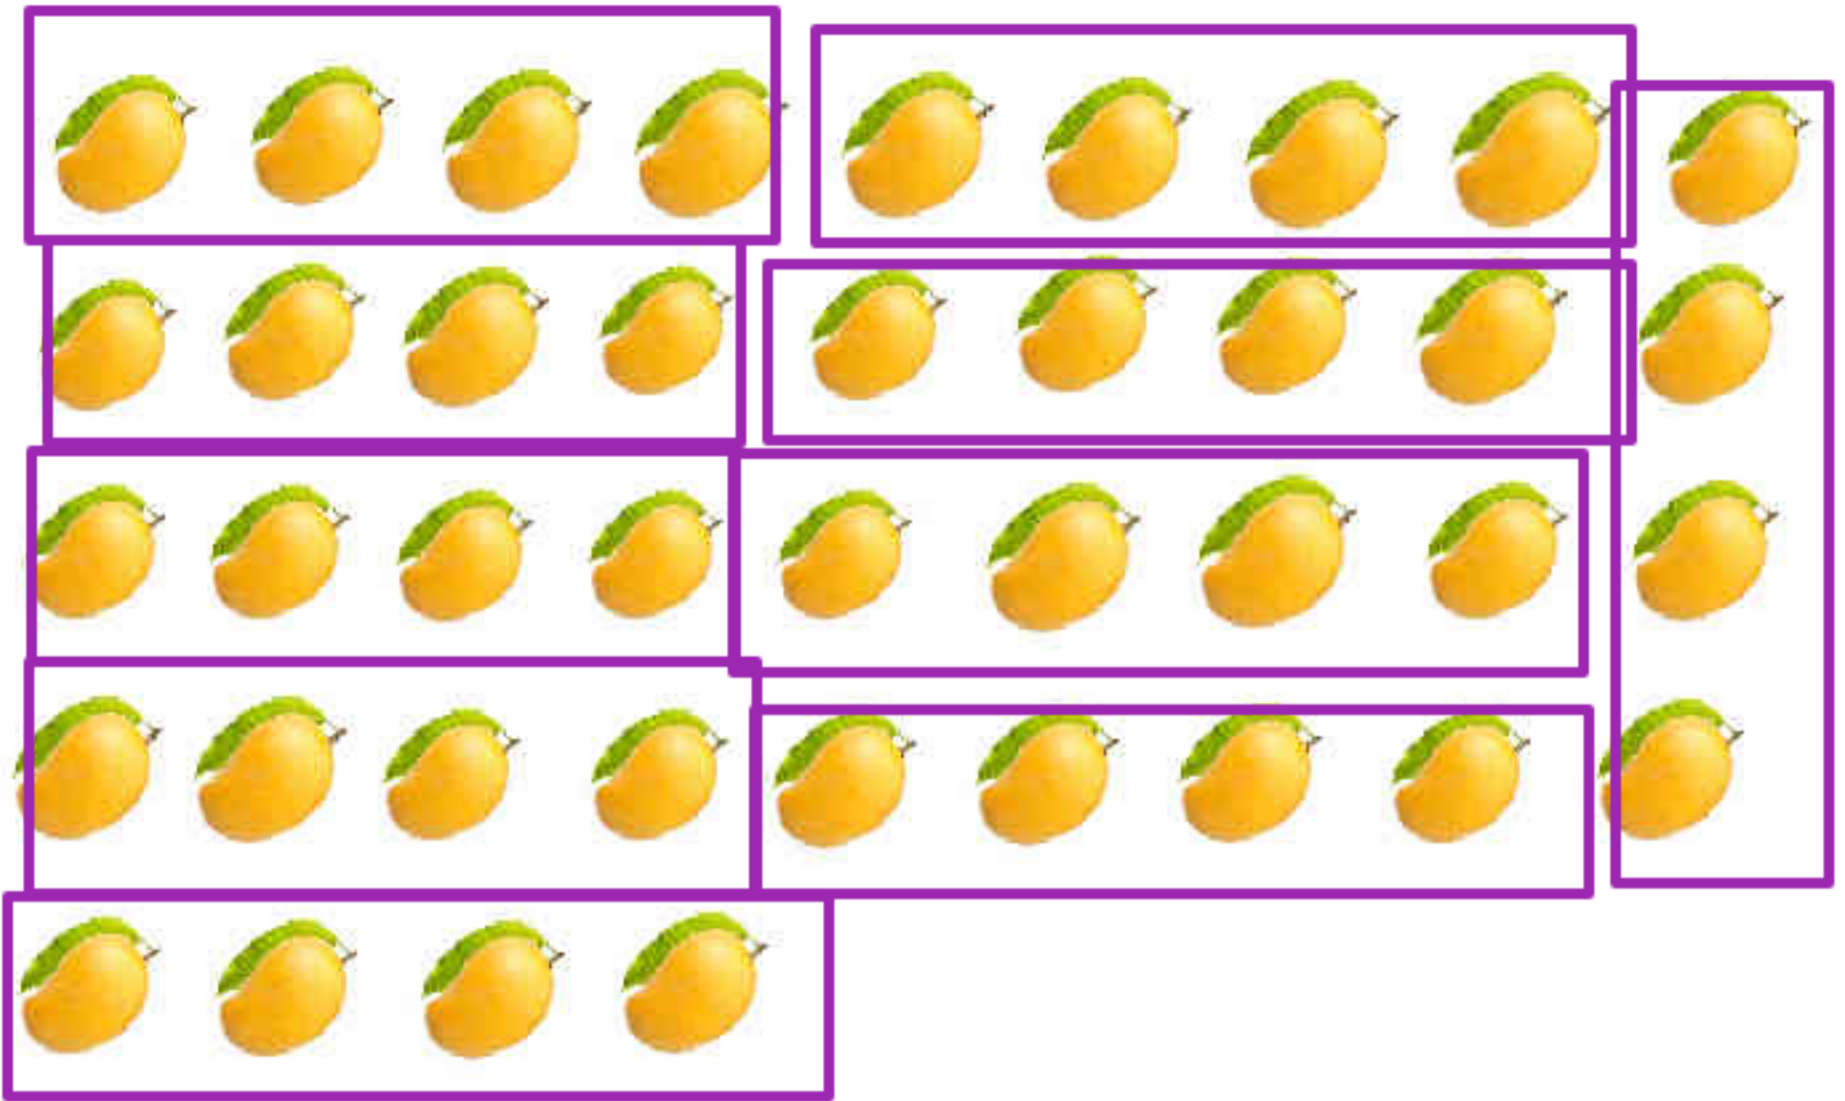

$$14-7=7$$

$$7-7=0$$

So there are 2 apples in 7 groups each.

6) 40 mangoes to be put in groups of 10 each

$$40-10=30$$

$$30-10=20$$

$$20-10=10$$

$$10-10= 0$$

So there are 4 mangoes in 10 groups each.

H.W
 2. How many groups would there be?
 Show in terms of repeated subtraction and division.
 One has been done for you.

10 balls to be put in groups of 5 each.

$$10 - 5 = 5; 5 - 5 = 0$$

$$10 \div 5 = 2$$

So, there would be 2 groups.

6 gloves to be put in pairs of 2 each.

$$6 - 2 = 4; 4 - 2 = 2$$

$$2 - 2 = 0, 6 \div 2 = 3$$

10 shells to be put in groups of 2 each.

$$10 - 2 = 8; 8 - 2 = 6$$

$$6 - 2 = 4; 4 - 2 = 2; 2 - 2 = 0$$

$$10 \div 2 = 5$$

12 books to be put in groups of 3 each.

$$12 - 3 = 9; 9 - 3 = 6$$

$$6 - 3 = 3; 3 - 3 = 0$$

$$12 \div 3 = 4$$

30 toffees to be put in groups of 10 each.

$$30 - 10 = 20; 20 - 10 = 10$$

$$10 - 10 = 0, 30 \div 10 = 3$$
